WEEKLY PROGRESS REPORT

UPSKILL CAMPUS

Internship in Data Science and Machine Learning

Name – Himanshu Sharma

Mobile no. – 7982581818

Email id- hs4534@dseu.ac.in

College – Guru Nanak Dev DSEU Rohini Campus

WEEK 4

> ➤ CONTENT

- The fifth week of the internship was very important and crucial for job or placement point of view as it covers all the topics that a fresher need to know in data science field.
- We were taught how to be successful in the corporate world , in which we were told about various tasks that we need to perform before and after placement to be successful in corporate world.
- The most important question in mind of every fresher is the average salary of a data science engineer , we were also

told about salary as a data scientist fresher or at a higher post

- At last comes the most important topic that is the interview question. To get a good job you should know how to give a good interview. There are many factors like body posture , confidence level , eye contact , but the most important is the interview questions . we were told about question that are important from interview point of view. Some of them were –
    1. Importance of data cleansing
    2. What is API?
    3. Systematic sampling and cluster sampling
    4. Etc…

➢ CHALLENGES AND HURDLES

- Many of the interview question were new to me and I had no idea about those topics because of which I faced some difficulties.
    1. I researched about those topics and learn about them.

➢ <u>LESSONS LEARNED</u>

- Tasks we need to perform to be successful in corporate world.

- Salaries of data scientist at different post. Comparison of salaries of other engineers and data science engineers.
- Various questions that are important from interview point of view. Some of them were-
    1. How is data science different from big data and data analytics?
    2. Why is data normalization important for machine learning models?
    3. What is JSON and XML?
    4. Significance of box plot.
    5. Etc….

Week 4 report – 30 July 2023

*I was shifted from 1 July batch to 15 July batch due to some issues.
